

Cemtec Snowpads

Cemtec snowpads are of a proven construction. The tubular design effectively prevents snow building up as snow clogs under the hoof. Cemtec's range, quality and price in the field of snowpads is second to none in the marketplace, and in Europe some of these products are market leaders. They are easy to cut, work with and durable. Always use snowpads during the winter season. Preferably together with studs. It's the best combination for safe traction and preventing snow building up under the hoof.
