

Cemtec aluminium Mini Cart, Model "Europe"

This cart is the perfect fun cart for mini, pony and cob size horses. Being made with an aluminium and stainless steel chassis with a good surface treatment and other largely corrosion resistant materials, it will be able to service your needs for years to come. It is a far cry from the average cheap cart available in the market. The shape of the pulling arms allows for width adjustment between 350 and 520 mm, and they height adjustment range is appr. between 600 and 1200 mm.

Cart
